Coalition goal: to increase the greater availability of authorized veterinary medicinal products for aquaculture on the market of European Union and EFTA countries.

Facts
- FishMedPlus Coalition was established in December 2015
- Goal is to facilitate the greater availability of veterinary medicinal products
- 3-step approach as a work strategy
- Consists of 10 experts
- Mandate for 3 years

The availability of veterinary medicinal products, including vaccines, for use in farmed aquatic animals is extremely low. This situation is a serious constraint on the prevention and treatment of disease, leading to welfare problems and hampering the growth of European Aquaculture.

Step 1
• GAP ANALYSIS
  Which products are needed on the market today and in the future?

Step 2
• INVESTIGATE BARRIERS
  Exploration of barriers and solutions, including environmental risk assessment

Step 3
• STIMULATING MARKETING AUTHORISATION
  Exploration of ways to stimulate more authorisations

Increase availability through partnership
